DISTRICT PHILOSOPHY:

A strong community, state, and nation depends upon public education to prepare students to become productive contributing members of an ever-changing society. Children are our community's most valuable asset. Clark County School District #161 prides itself in its ability to provide a model PBIS (Positive Behavior Interventions and Supports) environment that provides students and school personnel with a positive environment that is safe and conducive for learning. Not only does Clark County recognize, but more importantly it celebrates each students' uniqueness as an individual with his or her own special abilities. These abilities require the careful formulation of a curriculum, the skillful selection of dedicated educators, and the availability of appropriate opportunities that promote intellectual, physical, social, emotional, and career development of **ALL** students on a level commensurate with their capabilities, thus preparing responsible, contributing citizens accountable for their own actions, ready to face the world that awaits them beyond high school.

At Clark County, we believe that our school is an integral part of our community, and as such, must complement the child's development as a member of the family and community. Students should have access to educational opportunities regardless of race, color, creed, gender, or socioeconomic status.

The process in which educational development occurs is life-long. As life-long learners it is essential that we as a district not only value, but provide a safe, supportive environment which enables each student to acquire the knowledge, skills, and values

necessary to achieve a thorough understanding of the basic skills for all areas of development. At the same time, it is necessary to teach students to be flexible enough to adapt to an ever-changing society. Opportunities of growth in vocational skills, fine arts, and humanities will enable students to develop technical skills, creativity, self-expression, and aesthetic values. Guidance through these processes develops both the desire to continue learning throughout their lives and the skills to do so. Through this, we will foster a feeling of self-worth by providing **ALL** students with the foundations and opportunities to achieve productive successful lives. Education is an on-going process that requires continuous evaluation and responsible change,

It is our intent that parents/guardians impart to students a basic confidence in our district. Only through the joint efforts of all students, educators, parents, and our community partners can the goals of education be fully realized.

It is our intent that parents/guardians impart to students a basic confidence in our district. Only through the joint efforts of all students, educators, and parents can the goals of education be fully realized.

The goals and benchmarks listed in the template are for example purposes only. School districts should set their own benchmarks that are aspirational while still based on available resources and local needs. Benchmarks or performance targets set for each performance measure need to be for, at a minimum, the next fiscal year. Unless otherwise indicated benchmarks will be assumed to be for the next fiscal year.]
