From the desk of: *Mrs. Dexter*

Hello Parents and Guardians,

We are so thankful to have our students back with us in the building! As we continue in person learning, we want you to know that we have several plans in place aimed at learning recovery. It is our goal that all of our students regain learning that has been impacted by the pandemic. We currently have RTI/enrichment blocks of instruction built into the school day for all students, after school tutoring for identified groups, and we will be offering a summer learning institute for all students. Please help your student take advantage of these academic opportunities. We appreciate your support!

Thank you, Ms. Dexter

Random Acts of Kindness tree will continue in March.
Thanks to everyone who made Valentine's cards for Christian Care residents.

Spotlight on Staff

- We would like to Spotlight our 6th grade team. Ms. Meagan Finley and Ms. Staci Johnson have been working extensively to integrate technology into their classroom in meaningful and innovative ways. Their students participate in a Google classroom each week and are successfully developing 21st century skills including collaborating, researching and exploring careers. Thank you both for all of the planning and effort that has made this possible for our students!!!
- We would like to give a shout out to our Crofton Cafeteria Staff! Our cafeteria has worked thorough NTI and in person learning to provide meals for all students enrolled at Crofton! Thank you all for meeting this need!!!

Habit of the Month

Balance is best!

I take care of my body by eating right, exercising, and getting enough sleep. I balance my time between school, extracurricular activities, friends and family. I am always learning how to become a better person.
