#### **Test Taking Tips**

Although there are several different WorkKeys skill assessments, these practice materials focus on only a few of them. These practice tests contain multiple-choice items with a question followed by five possible answers from which you are to choose the *best* one. The following suggestions apply to all WorkKeys multiple-choice tests.

#### Pace yourself.

The time limits set for each WorkKeys test give nearly everyone enough time to finish all the questions. However, it is important to pace yourself. Don't spend too much time on one problem or reading section; go on to the other questions and come back if there is time.

#### Listen to and read the directions for each test carefully.

Before you begin taking one of the WorkKeys tests, pay careful attention to the directions. These tests ask for the *best* answer. It is important to keep this in mind when answering the questions, since it will sometimes be possible to think of responses that could be better than any of those offered or to defend a choice as not entirely wrong. Best-response formats are consistent with the real world, where choosing among less-than-perfect alternatives is routine.

You may want to work out the answer you feel is correct and look for it among the choices given. If your answer is not among the choices provided, reread the question and consider all of the answer choices again to find the best one.

#### Read each question carefully.

It is important that you understand what each question asks. Some questions will require you to go through several steps to find the best answer, while others can be answered more quickly.

#### Answer the easy questions first.

The best strategy for taking a test is to answer the easy questions and skip the questions you find difficult. After answering all of the easy questions, go back and try to answer the more difficult questions.

#### Use logic in more difficult questions.

When you return to the more difficult questions, try to use logic to eliminate incorrect answers to a question. Compare the answer choices to each other and note how they differ. Such differences may provide clues as to what the question requires. Eliminate as many incorrect answers as you can, then make an educated guess from the remaining answers.

#### Answer every question.

Your score on the WorkKeys tests will be based on the number of questions that you answer correctly; **there is no penalty for guessing.** Thus, you should answer every question within the time allowed for each test, even if you have to guess. You will be notified when there are five minutes remaining on each test.

#### Review your work.

If there is time left after you have answered every question on a test, go back and check your work on that test. Check to be sure that you marked only one answer to each question. You will not be allowed to go back to any other test or mark answers to a test after time has been called on that test.

#### Be precise in marking your answer document.

Be sure that you fill in the correct circles on your answer document. Check to be sure that the number for the line of circles on your answer document is the same as the number for the question you are answering. Position your answer document next to your test booklet so you can mark your answers quickly and completely.

#### Erase completely.

If you want to change an answer on your answer document, be sure to erase the unintended mark completely.

#### LOCATING INFORMATION

#### Using Tables, Forms, Graphs and Diagrams

#### 45 Minutes — 38 Questions

**DIRECTIONS:** There are 38 questions in this test, a small number of which are included for developmental purposes. Answers to these developmental questions will not count toward your score.

The test measures your skill in placing, finding, and applying information taken from various types of graphics including tables, forms, graphs, and diagrams. The first portion of the test has single questions. The remaining questions are in pairs. Each question or pair of questions is followed by one or more graphics. Note: A heavy, black, horizontal line appears at the end of each single question or group of related questions.

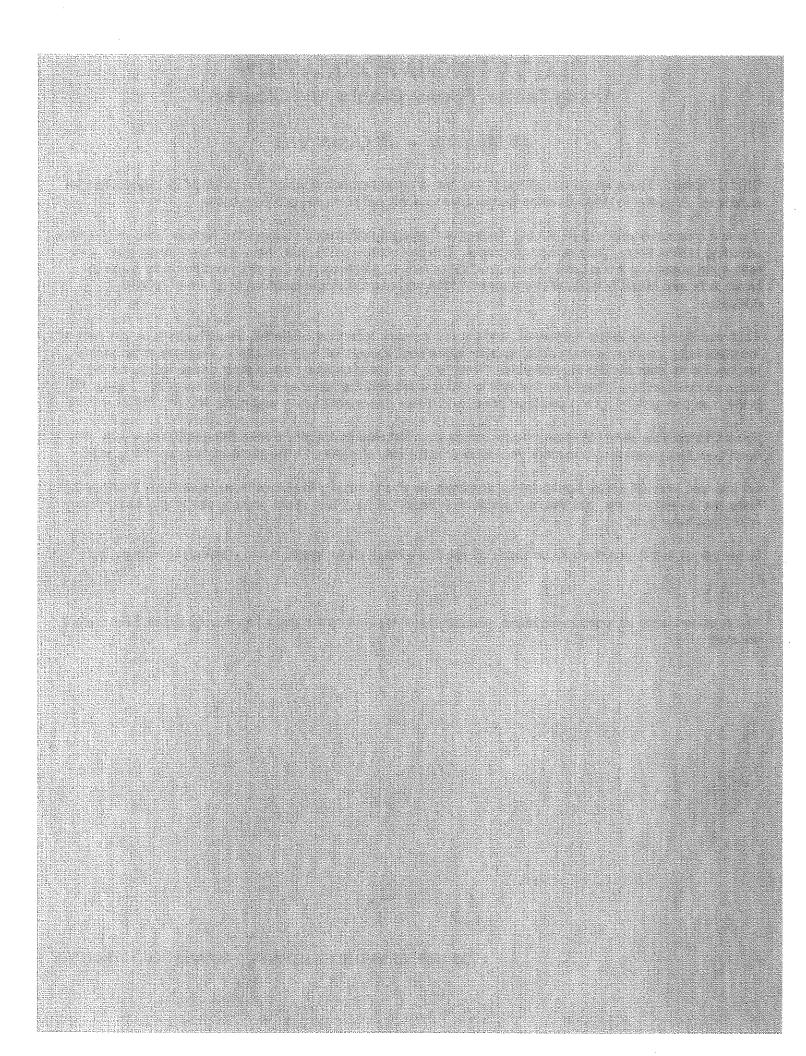

Each question in the test is numbered, and the five answer options are lettered. Read each question, look at the graphic(s), and then decide which answer is the best answer for each question. You may write on this test booklet to help answer the questions. Next, find the row of ovals on the answer sheet numbered the same as the question. Then, find the oval in that row lettered the same as your chosen answer. Finally, fill in the oval completely. Use a soft-lead pencil and make your marks heavy and dark. DO NOT USE A PEN.

If you change your mind about an answer, erase your first oval thoroughly before filling in the new oval. For each question, make sure you mark your answer in the row of ovals with the same number as the question.

On this test, you will not be penalized for guessing, so you should try to answer every question. If you do not know the correct answer, pick the one you think is best. Go back and check any questions you had difficulty with if you have time.

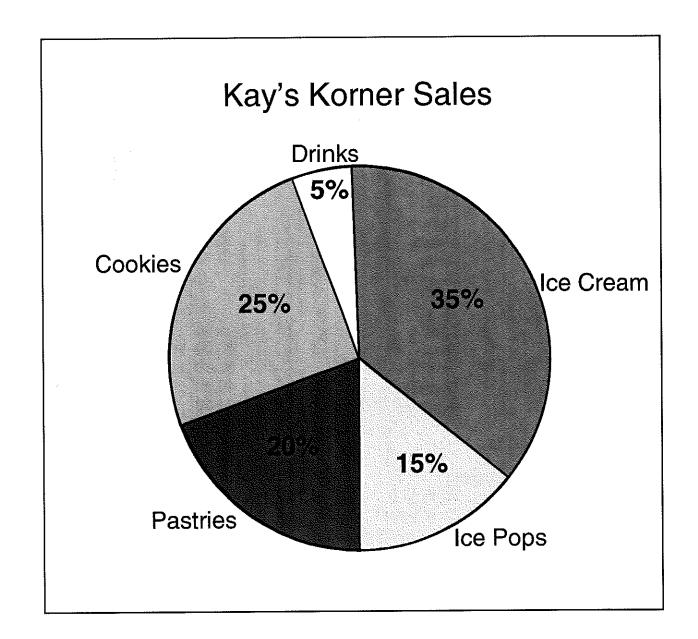

Some pages in this booklet may be blank. If you find a blank page, ignore it and continue on with the test.

The Answer Folder included is a sample; you can use it to simulate the testing environment and then score it yourself.

1. You are the manager of Kay's Korner. According to the pie chart shown, what percentage of sales is from ice pops?

- **A.** 5%
- **B.** 15%
- C. 20%
- **D.** 25%
- E. 35%

- 2. As a cashier, you close out your register by completing a closing form and putting the drawer contents into a bank bag. According to the closing form shown, what is the amount in checks?
  - **F.** \$ 100.00
  - **G.** \$ 567.87
  - **H.** \$ 643.78
  - **J.** \$ 989.04
  - **K.** \$2,568.83

Age (years)

- 26. You work in a home-improvement store in Connecticut (CT). A customer needs enough loose-fill cellulose to adequately cover a 1750 square-foot attic, and to know how thick the material should be applied. According to the map and tables shown, how many bags should you ship him, and at what minimum thickness should he apply the cellulose?
  - **F.** 403 bags, 3.5 inches
  - **G.** 413 bags, 18 inches
  - **H.** 543 bags, 13 inches
  - **J.** 963 bags, 8.25 inches
  - **K.** 1278 bags, 11 inches

27. You are assisting a university biologist. A crocodile tooth has been found and it corresponds to the tooth marked with an arrow. You need to classify the tooth appropriately. Based on the diagram shown, what should be the abbreviation for the tooth?

- A. d4
- В. d31
- C. m6
- D. m10
- E. m14
- 28. You are assisting a university biologist. You have discovered a piece of bone that is from the lacrimal region of a crocodile skull. To be sure, you try to match the piece with one of the others you have found. According to the diagram shown, which region is closest to the lacrimal region?
  - F. ectopterygoid
  - G. nasal
  - parietal H.
  - J. premaxilla
  - K. pterygoid

- Abbreviations:
- 1-31, tooth number
- a, angular
- d, dentary
- ec, ectopterygoid
- emf, external mandibular fenestra
- f. frontal
- j, jugal
- I, lacrimal
- m, maxilla
- n. nasal
- p, parietal
- pm, premaxilla
- po, postorbital
- prf, prefrontal
- pt, pterygoid
- q, quadrate
- qj, quadratojugal
- sa, surangular
- sq, squamosal

This page left blank intentionally.

Please go on with the test.

- 29. You are a baker at a specialty bakery and are trying out several British recipes for muffins and pies. In doing so, you use tables like the ones shown to convert the measurements so you can use the utensils you have on hand. The recipe you are using calls for .1 liter of melted butter. According to the tables shown, how many U.S. cups of melted butter should you use for this recipe?
  - **A.** 1/2
  - **B.** 5/6
  - **C**. 1
  - **D.** 2
  - **E.** 4
- 30. You are a baker at a specialty bakery and are trying out several British recipes for muffins and pies. In doing so, you use tables like the ones shown to convert the measurements so you can use the utensils you have on hand. One recipe calls for 60 milliliters of liquid vanilla extract. According to the tables shown, how many fluid ounces of liquid vanilla extract should you use?
  - **F.** 1/4
  - **G.** 1/2
  - **H.** 1
  - **J.** 2
  - **K.** 4

#### TABLE OF EQUIVALENTS

#### Liquid Measure Volume Equivalents

60 drops	= 1 teaspoon
1 teaspoon	= 1/3 tablespoon
1 tablespoon	= 3 teaspoons
2 tablespoons	= 1 fluid ounce
4 tablespoons	= ½ cup
5 1/3 tablespoons	$=\frac{1}{3} cup$
8 tablespoons	$= \frac{1}{2} cup$
16 tablespoons	= 8 fluid ounces
8 tablespoons	= 4 fluid ounces
½ cup	= 2 fluid ounces
½ cup	= 4 fluid ounces
3/4 cup	= 6 fluid ounces
1 cup	= 8 fluid ounces
2 cups	= 16 fluid ounces
3/8 cup	= ½ cup plus 2 tablespoons

1 cup  $= \frac{1}{2}$  pint 1 gill, liquid = 4 fluid ounces

1 pint, liquid = 4 gills or 16 fluid ounces

=  $\frac{1}{2}$  cup plus 2 tablespoons

 $= \frac{3}{4}$  cup plus 2 tablespoons

1 quart, liquid = 2 pints 1 gallon, liquid = 4 quarts

### **Dry Measure Volume Equivalents**

A few grains	= Less than 1/8 teaspoon
1 quart	= 2 pints
1 quart	$= \frac{1}{4}$ gallon
4 quarts	= 1 gallon
8 quarts	= 2 gallons
1 peck	= 2 gallons or $\frac{1}{4}$ bushel
4 pecks	= 1 bushel

#### Weight Equivalents

1 ounce	= 16 drams
1 pound	= 16 ounces
1 kilo	= 2.20 pound:

5⁄<sub>8</sub> cup

<sup>7</sup>/<sub>8</sub> cup

# COMPARATIVE U.S. AND BRITISH MEASUREMENTS

### Liquid Measure Volume Equivalents

1 1/4 teaspoons 1 1/4 tablespoons 1 U.S. gill 2 U.S. gills 1 U.S. cup 1 U.S. gill 1 U.S. pint 1 U.S. puart	= 1 English teaspoon = 1 English tablespoon = ½ English teacup = ½ English breakfast-cup = ½ English breakfast-cup = ½ English—Imperial—gill = ½ English—Imperial—pint = ½ English—Imperial—quart	1 U.S. teaspoon 1 U.S. tablespoon 4 U.S. tablespoons 16 U.S. tablespoons 1 U.S. gill 1 U.S. pint 1 U.S. quart 1 U.S. gallon	= 5 milliliters = 15 milliliters = 60 milliliters = .25 liter = .1 liter = .5 liter = .9463 liter = 3.785 liters
1 U.S. gallon	= % English—Imperial—quan = % English—Imperial—gallon	1 U.S. ganon	= 3.765 liters
	1 0		

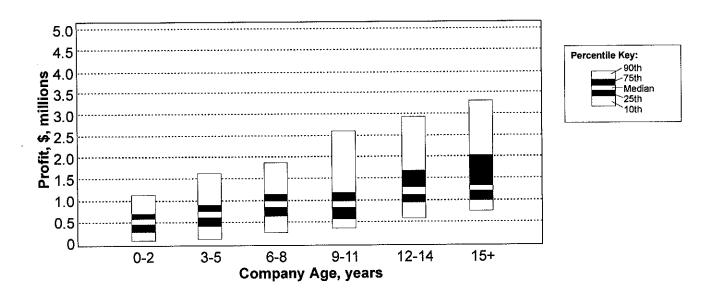

# Dry Measure Volume Equivalents

1 U.S. pint	= 1 English pint	Weight I	Equivalents
1 U.S. quart	= 1 English quart	_	<del>-</del>
1 U.S. peck	= 1 English peck	1 U.S. ounce	= 1 English ounce
1 U.S. bushel	= 1 English bushel	1 U.S. pound	= 1 English pound

## Metric Dry Measure Volume Equivalents

1 U.S. pint	= .551 liters
1 U.S. quart	= 1.101 liters
1 U.S. peck	= 9 liters
1 U.S. bushel	= 35.24 liters

- 31. You are a finance research assistant with a company that purchases smaller companies. You use the chart and table shown to compare prospective buys with current companies. Your company only purchases companies in the 90<sup>th</sup> percentile. Which company fits that prerequisite for purchase?
  - A. JMO Clothiers
  - B. Kenai Kampgoods
  - C. Northmann Cookies
  - D. Pierre's
  - E. Wolfware Software
- 32. You work for a business that purchases smaller companies. You use the information shown to compare prospective buys with current companies. Your supervisor wants you to look at Office Bytes, a 6-year-old computer company that earned a \$723,000 profit last year. Using the chart and information shown, how does Office Bytes compare to Wolfware Software?
  - F. Both Office Bytes and Wolfware Software are in the Median percentile.
  - G. Both Office Bytes and Wolfware Software are in the 75<sup>th</sup> percentile.
  - H. Office Bytes is in the 25<sup>th</sup> percentile, and Wolfware Software is in the Median percentile.
  - J. Office Bytes is in the Median percentile, and Wolfware Software is in the 75<sup>th</sup> percentile.
  - K. Office Bytes is in the 75<sup>th</sup> percentile, and Wolfware Software is in the Median percentile.

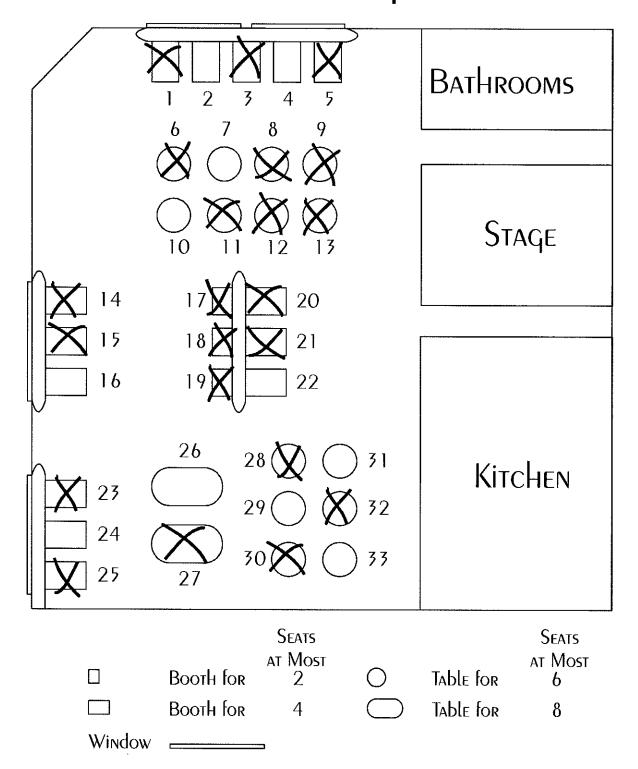

#### **Prospective Purchases:**

Company	Age	CEO	Headquarters	Last Year Profit
JMO Clothiers	8	John Smith	Louisville, KY	\$1,021,000
Kenai Kampgoods	10	Rachel Stonebrook	Juneau, AK	\$721,000
Northmann Cookies	16	Kay Northmann	Mason City, IA	\$1,315,000
Pierre's	5	Pierre LePez	San Diego, CA	\$1,016,000
Wolfware Software	1	Raul Gomez	Denver, CO	\$514,000

- 33. You are a greeter at a restaurant. At 7:05, a group of three customers arrives at the restaurant without a reservation. They do not want to sit near the kitchen. You generally allow two hours for a party to eat and for the staff to clear and reset the table. According to the floor plan and reservation list shown, where should you seat them?
  - A. Booth 2
  - B. Booth 22
  - C. Booth 24
  - D. Table 7
  - E. Table 29
- 34. The Chang party arrives a half hour early with three extra people, and would like to know if you can seat them now. You generally allow two hours for a party to eat and for the staff to clear and reset the table. According to the floor plan and reservation list shown, what should you tell the Chang party?
  - F. Yes, but not by a window.
  - G. No; they will have to wait a half hour.
  - H. No; they will have to wait one hour.
  - J. No; they will have to wait one and a half hours.
  - K. No; they will have to wait two hours.

   Check mark (✓) = arrival of party
   Check mark and single line through name = departure of party

- 35. You schedule appointments for Dr. Wahl following the guidelines shown. It is Monday morning, and Dr. Wahl finds out that the afternoon meeting she was scheduled to attend has been canceled, so you can schedule call-in patients for this afternoon. After this afternoon, Dr. Wahl's next available appointment is in three weeks. Based on the charts shown, the first two patients you should try to schedule for this afternoon are:
  - A. Allan and Ambili.
  - **B.** Ambili and Tally.
  - C. Ambili and Wessel.
  - **D.** Floyd and LaPlante.
  - E. Kapy and Lopez.
- 36. You have just scheduled Tito Brooks for Friday afternoon, and he calls back to ask how long his appointment will take. After looking at the information shown, you know that he should be in the office for:
  - F. 30 minutes.
  - **G.** 30 minutes + 15 minutes.
  - **H.** 30 minutes + 15 minutes + 15 minutes.
  - **J.** 1 hour + 30 minutes.
  - K. all of Friday afternoon.

- 37. You are an event coordinator for a conference center. The Food Service Managers' Conference chairperson calls to ask if an LCD projector can be added to the list of required features for Julie Podesta's event. This will require you to switch her room with another event. According to the tables shown, which room, if any, can you switch with hers?
  - **A.** 101
  - **B.** 103
  - **C.** 201
  - **D.** 202
  - **E.** No other room is available.
- 38. You are an event coordinator for a conference center. You receive an e-mail from the Food Service Managers Conference Committee asking if a room is available to make an hour-long teleconference at 11:00 on both days of the conference. According to the tables shown, which room is available each day?
  - F. Room 101 on Thursday and Room 115 on Friday
  - G. Room 103 on both Thursday and Friday
  - H. Room 117 on Thursday and Room 235 on Friday
  - J. Room 122 on both Thursday and Friday
  - K. Room 202 on Thursday and Room 103 on Friday
