Planning: 6<sup>th</sup> Period 2:00-2:45

Email: [Crystal.miller2@jackson.kyschools.us](mailto:Crystal.miller2@jackson.kyschools.us)

Pre-requisite: none

### Class Description

Integrated Social Studies is the first class in the Social Studies course sequence. In this class, you will study geography, culture, government and economies from around the world. This class is divided into two sections, integrated Social Studies A and Integrated Social Studies B. You must complete both sections of the class to complete your freshman social studies class.

### Class Objective

AS part of a global society, you will understand and explore various social aspects of the world around you to make informed decisions and become productive citizens. This class will make each student more aware of society, issues and what is going on around them. The goal is for students to be open minded and still hold onto their core values and beliefs. Just because someone is different from you, does not make them wrong and you right.

### **Integrated Social Studies**

Geography: 4 weeks

World Governments: 3 weeks

United States Government: 3 weeks
