

An Animal's Reaction to the Great American Solar Eclipse

The Solar Eclipse on August 21st is suspected to bring about a lot of confusion for pets, and animals.

Assignment:

Part 1: Research at least three various articles discussing scientists' perspectives and opinions as to how animals may react to the solar eclipse. Document the articles and/or websites you use for your information.

Part 2: Observe an animal or pet for at least 6 hours during the eclipse and document in detail if the animal's behavior changes in any way.

Part 3: Write a two-page essay discussing your findings from the articles, and what your opinions on how you believe animals will behave. After discussing your opinions of the articles and scientists opinions, discuss your findings and documentation of the pet or animal you observed during the eclipse. Turn in documentation, and essay with articles and/or article links used.

The rubric on the following page will be used to grade the essay. Please attach to your essay.

Plagiarism will result in zero credit.
