GOOD NEWS AT BRYANT ELEMENTARY

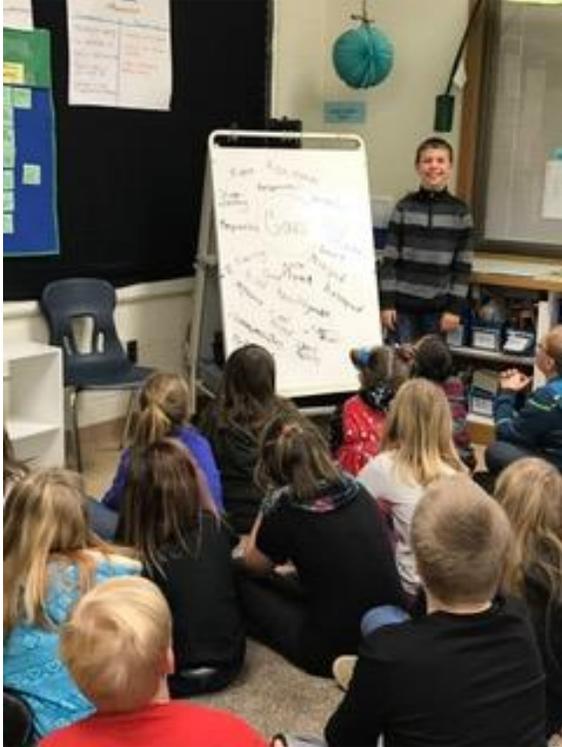

January 4-6, 2017

The kids worked in partners to review rules and expectations by making posters of various classroom and school places. (Crego)

Marley and Cadence made a poster informing of the lunchroom expectations. (Crego)

Gavin is our student of the month for December. The students took time to share the reasons they feel Gavin deserves to be student of the month. (Powell)

Students are looking for clues that helped them use inferencing in our poem. After that they used a double-entry journal to record their clues and inferences. (Powell)

Congrats to our Students of the Month from December who were honored on Friday, Jan 6.

Fourth grade has been busy working on their state floats for our region unit we have been studying. Each student is required to research their state and portray the information they have found about that state on a float. A special thank you to food service who have provided many of our boxes. The students utilized the iPads to gather the information needed to construct these. (MacKay)

We are beginning to explore the concepts of motion and stability. We learned that it takes a force to move something, either a push or a pull. (Nevadomski)

Today we learned that just because a container is taller, it does not mean it holds more liquid. (Nevadomski)

We learned that the word flexible is used as a property of matter by seeing if we could put a straw straight through a potato. We did several trials putting the straw through different angles, using different straws, using various strengths, and using whole and half potatoes. One student concluded that there is water inside the potato and the particles in a liquid move around so they moved enough to allow the straw to go through the potato. (Crego)

We are learning about light and shadows, how light works, etc. Thanks to Mr. Rowland for this awesome dark/light box. We first looked into the box through a hole and we couldn't see anything. Then, we shined a flashlight into the box and we saw a fun surprise... a cute little bear was hiding in there! The kids loved it. They laughed and laughed. (Aue)
