

Kelliher School has initiated a "soft lockdown" drill because of a rumor that is circulating online somewhere that an unidentified individual has made some type of comment about "shooting up a school in northern Minnesota." While we believe this is only a rumor, and although the odds are very minimal considering the large number of schools in northern Minnesota between Moorhead and Duluth, school administrators feel that we should take an abundance of caution by holding a soft lockdown drill just to take precaution.

We are also cancelling Targeted Services for the afternoon.

We do not think this threat is imminent, but, just to be on the safe side, we want to cancel activities after school.
