

iPod Touch, iPhone, iPad – ParentVUE and StudentVUE App

Description

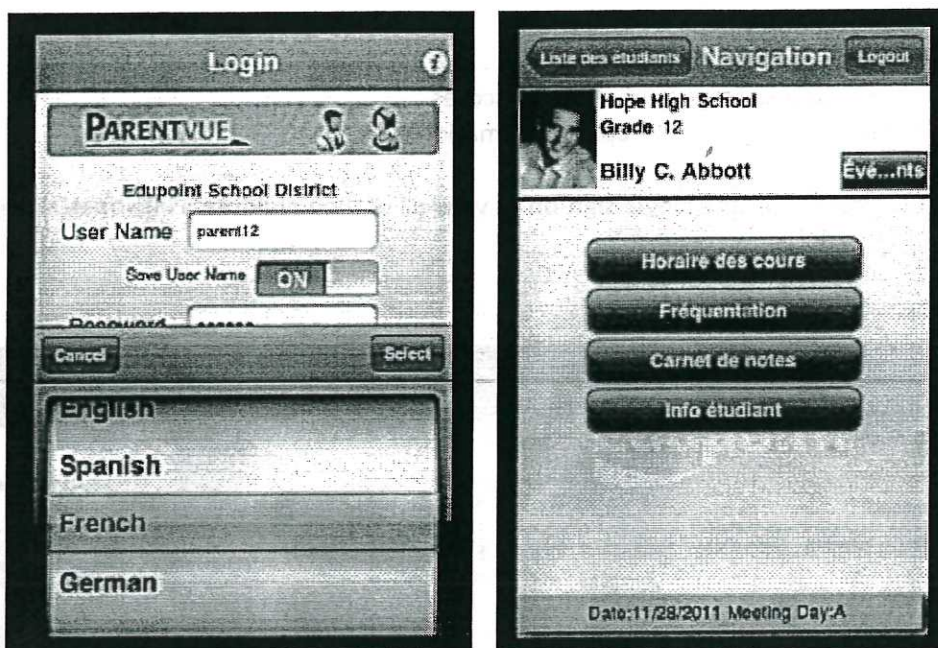

- The ParentVUE Mobile application helps parents stay informed and connected by providing day-to-day insight into their child's academic experience.
- ParentVUE Mobile for the iPhone / iPod Touch works with the Synergy student information system in much the same way as the ParentVUE web portal, allowing parents to access near real-time information on:
 - class schedules
 - current grade book grades
 - access to assignments and scores
 - attendance, and demographic information.
- ParentVUE offers parents a single sign-on to view all of their children's information regardless of school.

iPhone Screenshots

Multiple Languages:

- 1) Multiple languages need to be setup in Synergy. See the Multiple Language Setup.docx for instructions on how to do this.
- 2) ParentVUE and StudentVUE will have on their main login page a chance for parents and/or students to choose a language. You will see your current language listed with an opportunity to change it by clicking the Change button. The user will be presented with a list of language options from which they can select the one they would like to use. Below there is an example.

Directions for installing Mobile Apps for ParentVue/StudentVue on your iPod Touch, iPhone, iPad, and Droid

1. Go to your Apps store and search **Edupoint Education**
 2. Choose ParentVue or StudentVue
 3. Download
 4. Open and put in the URL (<https://rt1.region1.k12.mn.us/rt0036>)
 5. Put in your username/password. (If you have never created an account as a parent or student you must do that first on a land computer)
- Any questions call me and I will help you. (Linda)
