

# How Parents Sign-up for Edmodo Parent Accounts

Once a student has [created a student account](#), they will automatically have a unique [Parent Code](#) that their parents can use to create Parent Accounts that are linked to the specific student account. Because Parent Accounts do not join groups, a parent will not need a Group Code or a Group Join URL to sign up for an account. Once parents sign up for a Parent Account, any group that their child joins will be added to the Parent Account. Parents only need one Parent Account, as they can [add multiple students](#) to one Parent Account.

**Once their child has signed up, parents can sign up for Parent Accounts by following these simple steps:**

1. Obtain their unique [Parent Code](#) from their child's student account (this is *not* the same as a Group Code).
  - o The Parent Code is unique to the child's student account. You can get this the following ways:
    - **The Student's Edmodo Homepage on a web browser (Chrome, Firefox, Safari, etc.):** the Parent Code is located on the bottom of the left side panel in a blue box.
    - **The Student's Edmodo account on an iOS app:** click "More" on the bottom navigation menu, then choose the Student's name, and the Parent Code is in blue font below the "Invite Parents" button.
    - **The Student's Edmodo account on an Android app:** click "More" on the bottom navigation menu, then choose "My Profile", and the Parent Code is in blue font below the "Invite Parents" button.
    - **The Teacher** can provide the Parent with the Parent Code.
2. Go to [www.edmodo.com](http://www.edmodo.com) on a web browser, or use Edmodo for Parents mobile app
3. Select "**I'm a Parent**" and Sign Up.

*Note: You can also direct parents to the [How to Sign Up as a Parent](#) Help Center page.*
