### Grading

The credit recovery program was established to allow students to demonstrate mastery. In order for a student to receive credit for a unit, he/she must earn 65% mastery in that unit. This sets the minimum grade for each course taken at 65.

### Note:

Students can only take state tested subjects in summer school if they have passed the subject area test.

Students may not participate in credit recovery if a grade below 50 was received for a course.

Courses are subject to availability on credit recovery program.
