

# LEWISBURG ELEMENTARY PTO

## SIGNUP GENIUS

SignUp Genius is a group messaging tool that allows the PTO to send invites to our members to sign up for volunteer opportunities and help out with school activities. It allows you to pick the dates and times that you are available to help with a specific event. SignUp Genius invitations will be sent out using your personal email that you provide to the PTO. You will be able to see the times and dates available as well as who else has signed up to work each shift. SignUp Genius is also accessible from our FaceBook page and our website.

## FACEBOOK: LESPTO

We have designed our FaceBook page for two important reasons. First, we want to give details and information about all of our events so you feel comfortable and confident when offering to volunteer at a certain event. Second, we want everyone to feel part of the LES community and allow you to see and experience that wonderful things that are happening at Lewisburg Elementary School.

## REMIND 101: LESPTO

Remind is a tool used for friendly reminders intended to make a parent's job easier. Most of the teachers at LES and Desoto County Schools use Remind. Sign up is easy! You can send a text to 81010 with @lespto in the message and you will be added to the remind class. You can also download the Remind app on your phone and all of your Remind classes will show up there. We will use the Remind app to keep you up to date with deadlines and upcoming events such as snow cone days and Spirit nights!
