

DeSoto County Schools PowerSchool Parent Portal

PowerSchool Parent Portal gives parents/guardians and students access to real-time information including attendance, grades, detailed assignment descriptions, school bulletins, and even personal messages from the teacher securely via the Internet.

Parents/guardians now have the ability to create a single log-in name for all of their children. If a parent/guardian had a child/children in DeSoto County Schools last school year, that parent will need to use his/her original log-in information (log-in name and password from last year) to create this SINGLE log-in name and password.

If students are new to DeSoto County Schools, each parent/guardian will need to use the generated log-in name and password to create the single log-in account.

Secondary users can create their own account, as long as they have the original log-in information.

To create the single log-in, go to the Parent Portal website at www.desotopowerschool.com/public. At the sign-in page, click on "Create an Account". Enter the "Create Parent Account" information at the top. Then enter the "Link Students to Account" information at the bottom. Enter the Student's name, Access ID, Access Password, and relationship for each student you wish to add to your Parent Account. **The password provided is case sensitive.** Click Enter. This will generate your new, single Log-in Account information.

If you are experiencing problems creating your account, please contact your child's school.
