

AW James Elementary Instructional Resources

At Home Reading, Math and Science Assignments

All students in grades K-5 have lessons assigned in iReady Reading and Math. Students should use their login numbers to complete assignments daily. When accessing the iReady program, please login using Google Chrome. If you have problems logging in, please contact your child's teacher via school status.

Additionally, all 5th grade students have Science lessons assigned in Study Island. This is the same program students use while in school. Students should already know how to use the program.
