Drew Hunter Middle School will focus our attention on creating rigorous, relevant work designed to help scholars grow and become successful. We will plan our lessons to inspire scholar's curiosity and to provide hands-on activities that give our scholars the opportunity to apply the knowledge that they have acquired. It is our goal to assist in the development of the whole child, one who is well prepared for 21st Century College and Career opportunities.

We hope that you will be encouraged to help us in our endeavor to help our scholars to become successful citizens in the 21st century and beyond.

This year is a "Great Year to be an Eagle".

What is a Mindset?
Assumptions and beliefs we hold that influence our behaviors and choices

Your mind is the most powerful medicine.

Fixed Mindset
Believing that our abilities, intelligence and skills are limited.

- I avoid challenges.
- I don't like to try new things.
- I'm either good at it, or I'm not.
- I give up when I fail.

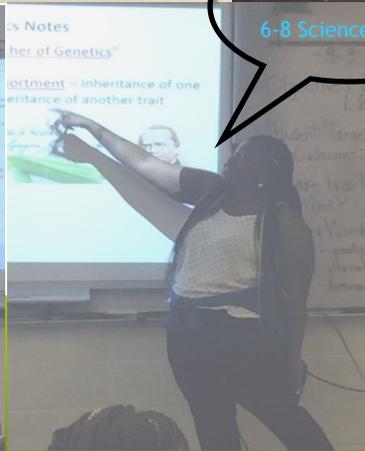

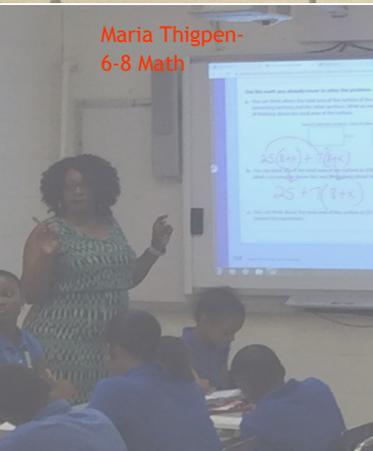

Growth Mindset
Believing that our abilities, intelligence and skills are limited, can be changed and improved.

- I can learn anything.
- When others succeed, I am inspired.
- I enjoy challenges.
- I can get smarter.
