Dear Parents:

Your future freshman has indicated interest in and/or has been recommended for one of Northside High School's career academies for fall 2017. He/she will attend a Career Academy Showcase at Northside March 14, 2017 to gain more information and a better understanding of the programs we have to offer here at Northside.

Career academies show students how their school subjects are related to careers they may want to pursue by connecting academic subjects to real world applications. Career academies provide an excellent background for students who are interested in pursuing further education or work related to various careers. Career academy students form strong bonds with each other and their teachers as they are part of a small learning community. They are often more engaged in school because they are interested in the career field around which our school is focused. Academy teachers work closely with students to learn the foundational skills for that field, to explore career opportunities, and to access internships and other work-based learning experiences at industry sites.

Northside High School's faculty and students have talked with most of the upcoming freshmen about the career academies we have to offer, but it is also very important that you are involved in decisions about your child's educational options. **Please assist your freshman in using the link below to officially apply to Northside High School's career academies by March 17, 2017.** This application will allow your freshman to select his/her **top two career academy choices**. Once all applications have been submitted and reviewed, students will be placed and acceptance letters will be distributed.

Mrs. Maria Johnson
Principal

Dr. Kimberly McDuffie
Assistant Principal

Mr. Jeremy Amidon
Assistant Principal
