September 8, 2014

Dear New Bridge Stakeholders,

New Bridge Middle School's 2013-14 READY Accountability data represents one of many measures of the health of our school. The model reports achievement in three forms: 1) proficiency, 2) Annual Measurable Objectives (AMO), and 3) academic growth. The READY Accountability model includes testing for 6th, 7th, and 8th grade mathematics and reading and 8th grade science through the North Carolina End-of-Grade (EOG) tests. Our students enrolled in Math 1 take the End-of-Course (EOC) test. The results from these tests are contained within the READY Accountability profile for New Bridge Middle School.

Although it is not part of the READY Accountability model, this testing and accountability brief will also report data from the North Carolina Final Exams (NCFE) for 6th, 7th and 8th grade social studies and 6th and 7th grade science.

New Standards

Our state and school district began using the current NC Standard Course of Study in 2012-13. With Common Core for reading and math and the NC Essential Standards for other subject areas, 2013-14 represents our second year working with the current standards.

Grade Level Proficiency (GLP)

Grade Level Proficiency (GLP), which includes student who scored an achievement level 3, 4, or 5, is 63.4% for New Bridge Middle School (2013-14), the highest GLP of the Onslow County middle schools. All grade levels at New Bridge for all READY tested areas demonstrated increases from 2012-13 to 2013-14 with a reported average increase of 14.4%.

College and Career Ready (CCR)

A new measure of accountability is College and Career Ready (CCR). As the 2013-14 year ended, North Carolina changed the reporting model from four achievement levels to five achievement levels. The revised achievement levels assist us in identifying students who are both prepared for the next grade and are career/college ready. Students who score at Achievement Level 1 show limited command of the subject material. Achievement Level 2 students show partial command. Achievement Level 3 is considered the state proficiency standard and students at this level show sufficient command of subject material. Students who score at this level may get on track for career and college readiness with additional academic support. Achievement Levels 4 and 5 are considered career and college ready and students at these levels show solid command and superior command of subject material respectively.

While GLP is calculated using Achievement Levels 3, 4 and 5, CCR is calculated only using Achievement Levels 4 and 5. College and Career Ready proficiency is 53.5% for New Bridge Middle School (2013-14). Although CCR and the five levels didn't exist as a measure in 2012-13, calculations from our district's accountability and testing office demonstrate that all grade levels at New Bridge for all READY tested areas increased from 2012-13 to 2013-14 with a reported average increase of 4.2%.

Annual Measurable Objectives (AMO)

Federal Annual Measurable Objectives (AMO) are calculated using Career and College Readiness Standards (Achievement Levels 4-5). Each school has a number of AMOs based on different subgroup populations. Subgroups for a school may be included in this calculation when 30 or more students are classified in one of the following categories:

- School as a whole (all students);
- American Indian;
- Asian;
- Black;
- Hispanic;
- Two or More Races;
- White;
- Economically Disadvantaged Students;
- Limited English Proficient (LEP)
- Students with Disabilities (SWD) ; and,
- Academically Intellectually Gifted (AIG)

Student scores are included in multiple subgroups. Altogether, New Bridge Middle School has 46 targets for the purpose of calculating Annual Measurable Objectives (AMO). In 2013-14, 41 of the 46 targets were MET. All (100%) targets were MET for reading. Five mathematics targets were missed. The AMOs for math that were “not met” included: all, white (W), economically disadvantaged (EDS), students with disabilities (SWD) and academically intellectually gifted (AIG). Overall, New Bridge Middle School met 89.13% of the AMO targets.

Academic Growth

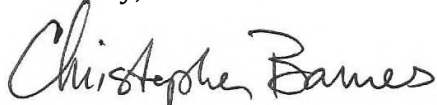

The state sets growth standards based upon individual past performance. New Bridge Middle School is proud to have MET the state’s growth expectation.

Strategic Planning

We are pleased to see that New Bridge Middle School remains above the state and district average in the READY tested areas. In almost every tested area, New Bridge students performed above their counterparts across the district. Continuing our current trend of improvement is the goal. The efforts of our faculty to address subgroup gaps are documented in our strategic plan. The recently released READY accountability data will serve as springboard for school-based reforms.

For more information about the READY Accountability Model and the 2013-14 results can be found at <http://www.ncpublicschools.org/>.

Sincerely,

Dr. Christopher Barnes, Principal
New Bridge Middle School

**New Bridge Middle School
2013-14 Testing and Accountability SUMMARY**

New Bridge Middle EOG/EOC	2012-2013		2013-2014		Percent Difference in Proficiency		Change
	% Prof	CCR%	GLP%	CCR%	GLP%	Status	
6th Grade ELA	50.0	58.4	68.2	8.4	18.2		
7th Grade ELA	57.1	57.2	68.1	0.2	11.0		
8th Grade ELA	47.1	50.7	67.5	3.6	20.4		
6th Grade Math	42.1	44.2	52.3	2.1	10.3		
7th Grade Math	35.2	39.3	48.2	4.1	13.0		
8th Grade Math	34.3	41.9	51.6	7.6	17.3		
8th Grade Science	74.6	80	86.5	5.4	11.9		
Math 1	82.6	84.7	95.8	2.1	13.2		

	Change 12-13 to 13-14	% CCR	% GLP	Growth
New Bridge Middle	4.8	53.5	63.4	MET

New Bridge Middle School posted a positive change in proficiency from 2012-13 to 2013-14 of 4.8%. This compares favorably to the district middle school average of 0.5% change from 2012-13 to 2013-14. Middle school changes ranged from a 4.9% decrease to 4.8% increase, with New Bridge posting the greatest positive change. The test scores reveal that New Bridge met state growth expectations. Progress toward achieving growth is based on the federally required Annual Measureable Objectives (AMOs) for English Language Arts/Reading, Mathematics and Science, Math I, and attendance.

	AMO (met/total)	AMO %	AMOs Not Met
New Bridge Middle	41/46	89.13%	M- All, W, EDS, SWD, AIG

New Bridge Middle School met 41 of 46 Annual Measurable Objectives (AMOs) or 89.13%. This compares favorably to the district middle school average of 76.69%. Middle school percentages of AMOs "met" ranged from 69.57% to 89.13%, with New Bridge posting the highest percentage. 100% of the English Language Arts/Reading goals were met. Five math goals were not met.

Terms

CCR: Career and College Ready; students at achievement level 4 & 5.

GLP: Grade Level Proficiency; students at or above achievement level 3.

AMO: Annual Measurable Objectives; performance targets for subgroups.

EDS: Economically Disadvantaged Students

SWD: Students with Disabilities

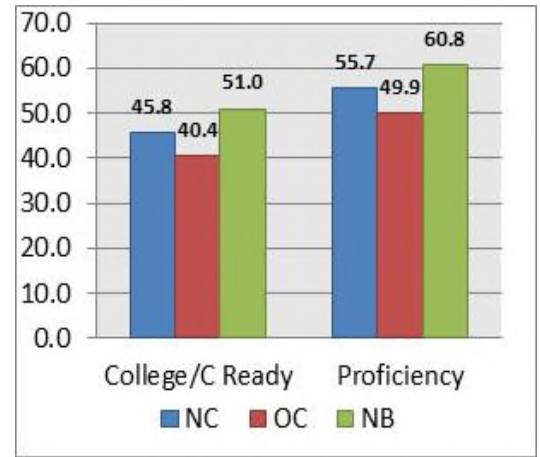

AIG: Academically Intellectually Gifted
