

Graduation Project Component Deadlines As of October 28, 2016

As of October 28, the following items should be turned in to your student's teacher: Mentor form acknowledgement, junior research paper completed, mentor hours, field work logs, 11 field hours, and 7-8 reflections. If your student is missing one or more of these components, they are behind in the process. Please check with your student and his/her teacher to ensure that these items have been turned in. Please be advised, that the night of presentation is quickly approaching. Our goal is to ensure that each student successfully passes English 4 in the Fall semester, avoiding having to return to English 4 in the Spring. I strongly encourage students and parents not to wait until the last minute to reach out to teachers concerning this important project.

Thank you for support in ensuring that your student complete all components of their project and meet deadlines.

Dr. Kimberly McDuffie
