Dr. Lesley F. Eason, Instructional Services & Continuous Improvement
Dr. Barry D. Collins, Human Resources & Student Services

Assistant Superintendent

Mr. Steve Myers, Auxiliary Services

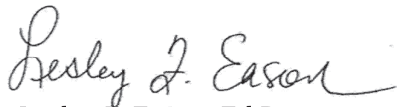

August 23, 2013

Dear Parents/Guardians,

The Onslow County School System is pleased to announce that your child's school and/or classroom has been selected to participate in a Personally Owned Device (POD) Model Program. The use of computing devices is vital to 21st Century learning. This program will allow select students the opportunity to bring their Personally Owned Device to school in order to increase student productivity, thereby supporting the district's vision and enhancing the classroom learning environment.

As part of this program, you and your child will be asked to take a short survey to provide feedback on your child's access to a computing device that could be used in the POD Program. Once the survey is completed, additional supporting documentation such as Program Guidelines and Agreement Forms will be provided and accessible through your child's school's website. We are very excited about this new innovative program and confident that your child will enjoy this hands-on approach.

Sincerely,

Lesley F. Eason, Ed.D
Associate Superintendent
