

Interested in receiving text messages with nutrition tips?

NCDPI, School Nutrition Services is excited to offer a pilot of the *NC Nutrition ConnectEd* text message program. The goal is to provide helpful, convenient nutrition tips and strategies that families can use. The program is designed to complement what your child is learning at school.

NC Nutrition ConnectEd is being piloted in select elementary schools across the state to see if the text messages are helpful to families of school-age students. Your school has been selected to participate in the pilot. As a parent or family member, you can choose to sign up for this program if interested in participating. We are looking for one adult parent or guardian from each student's family at your school to sign up to receive the text messages.

Visit <http://bit.ly/2ojGWBp> to sign up. From the drop down menu, choose Email or SMS/Text Message to let us know where you would like to receive the nutrition text messages. If you choose Email, you will be asked to provide an email address. If you choose SMS/Text Message, you will be asked to provide your cell phone number. Please continue through the sign up process to tell us the name of your district and school and your role (i.e., parent/guardian, teacher, etc.). You will receive about 2 messages per week. Message and data rates may apply. You can choose to opt out of receiving messages at any time. Your contact info will only be used for the *NC Nutrition ConnectEd* text message program. This pilot of the text message program will run through June.
