

## Innisbrook

The Innisbrook catalogs come to the school mid to late August with a sample kit which includes signage and products to be used anyway you wish. We have used this in the past to decorate the entrance to the school, prize give aways for promotional sales contests and sample so folks can have the opportunity to handle the product. This fundraiser rolls out around the first full week of school. Orders are logged online by students or parents (unless someone asks for assistance) mid October and delivery to the school is early November.

Innisbrook provides a personal Innisbrook Representative to guide you every step of the way. She is happy to meet with you before you get started, to answer questions you may have and assist you with anything, including fundraising ideas. Innisbrook also provides a Chair Website which has all the information you may need including sales reports for grades, classes and individual students to name a few. There are reports for product sold number of items, prior years, a host of ideas for building sales along with templates that can be used for communications in our Friday Folders.

Innisbrook also provides a timeline or agenda to work with to help keep you on track and our rep will also be on site to assist with delivery of product at the school. Not only are they a very easy company for the chairperson to work with but also provide a toll free customer service number for any of our families to call if they have a question or concern.
