

Dear NHS Community,

Attached you will find the results of the 2017 NHS Parent Survey that were presented at the School Board meeting on August 17. Thank you to all who participated. The results represent 61% of our students, giving us strong information reflective of what you think our school is doing well and where we need to improve.

While many of our measures decreased in satisfaction from the preceding year, the results give us additional direction. Dr. Erik Anderson, our new principal, will be sharing the survey information at his first staff meeting this week, and all of us will be using the data as one of many tools to inform decision making on improving our school for everyone.

From the Board's perspective, we have a clear understanding of the work we need to do together, and one of the important items on that list is to do a better job of communicating. To that end, we are establishing a communications team. A separate email will request volunteers from the staff and the community to work on this important team.

Thank you again for taking the time to complete the survey and provide us with valuable information.

Sincerely,

The North Hampton School Board

James Sununu, Chair

Cindy Burke, Vice Chair
