

North Hampton Agriculture Commission celebrates North Hampton's agricultural heritage and 275th Anniversary with a tractor display at the Airfield on Saturday Oct 14 from 10am to 2pm.

Enjoy a meal at the Airfield Cafe, and then view some of our town's antique, restored, and newer tractors. On display will be a working 1921 Bulldog Grist Mill, a 1924 Fairbanks Morse Cord Wood Saw, one of North Hampton's first tractors from 1947, and many others.

In addition, a North Hampton grown Giant Pumpkin will be displayed for kids to guess the weight and receive a prize for the winner.

All the regular activities at the airfield will continue throughout the day as a back drop for this event. Schedule a ride or a lesson in one of their airplanes for a birds eye view of North Hampton .

Happy 275th North Hampton!

This is a town sponsored event, not a school sponsored event.
