

School Bus Contract

September 2018

Greetings Parents and Students,

In the interest of the safety and security of every learner that rides the bus, please review the following bus behaviors and expectations. In addition, please sign and return the bottom of this form. The goal of this bus contract is to ensure that bus rides are safe and enjoyable for all learners. If you have any questions, please contact the main office.

1. **Assigned Seats** – Students will only be given assigned seats if they have received a warning from an administrator and the parents have been informed of the incident.
2. **Stay Seated** – Students should remain in their seats until the bus has come to a complete stop at their drop-off location. They are not allowed to lean over the front or backs of seats.
3. **Reasonable Volume** – It is important that students maintain a reasonable volume and use an indoor voice on the bus. This will ensure that they can hear all directions from the bus driver.
4. **School Rules** – Riding the school bus is still a part of the school day. Students should follow the same rules of the school day. Foul language and cellphones are **not** permitted on the bus. Students are to keep their hands to themselves.
5. **Stay Safe** – Please remind your child that it is important to make safe, smart choices in all motor vehicles. We encourage all parents to discuss safe choices with students throughout the course of the year.

Thank you for your support in safety of our learners!

Sincerely,

Jacqueline Beckmann
Assistant Principal
