

Mr. Gehly Lesson Plans
October 5-9

MONDAY

Media Production (Periods 1, 3-5, 7)

Media 1

Topic: Revealers

Activity: Students will produce a video in which a classmate disappears and reappears three times. Students will create a second version that utilizes “revealers” to creatively move people and objects off screen with smoke, fire, and other elements. Students will also add sound effects that match the action of the revealers.

Media 2-4

Topic: News Packages

Activity: Students will edit news package projects.

Special Effects (Period 6)

Topic: Stop Motion Animation

Activity: Students will shoot the Stop Motion Animation project. Animation will move at 15 frames per second. The film will be a minimum of :60 in length.

Innovation and Design (Period 8)

Topic: Introduction to Adobe Illustrator

Activity: Students will complete an Adobe Illustrator tutorial that focuses on selection tools and selection techniques. Students will ultimately design a robot head graphic.

TUESDAY

Media Production (Periods 1, 3-5, 7)

Media 1

Topic: Revealers

Activity: Students will produce a video in which a classmate disappears and reappears three times. Students will create a second version that utilizes “revealers” to creatively move people and objects off screen with smoke, fire, and other elements. Students will also add sound effects that match the action of the revealers.

Media 2-4

Topic: News Packages

Activity: Students will edit news package projects.

Special Effects (Period 6)

Topic: Stop Motion Animation

Activity: Students will shoot the Stop Motion Animation project. Animation will move at 15 frames per second. The film will be a minimum of :60 in length.

Innovation and Design (Period 8)

Topic: Adobe Illustrator- Creating and Editing Shapes

Activity: Students will complete a tutorial in which they will design an advertisement for a real estate company.

WEDNESDAY

Media Production (Periods 1, 3-5, 7)

Media 1

Topic: Rate Stretch Tool

Activity: Students will be introduced to the Rate Stretch Tool and learn how to slow down, speed up, and reverse video. Students will shoot three shots that will be reversed in post-production.

Media 2-4

Topic: Horror Film - Frankenstein Parody

Activity: Students will be introduced to the Frankenstein Horror Film Project. Students will develop a short film parody that includes both plot elements of the original film and characteristics of the horror genre. Students will view several video clips and discuss key plot elements of the narrative.

When necessary, students will work on news packages. News Packages must be completed by the end of the first nine weeks and in a timely manner after the event.

Assignment: Magic Act is due Thursday, October 1

Special Effects (Period 6)

Topic: Stop Motion Animation

Activity: Students will shoot the Stop Motion Animation project. Animation will move at 15 frames per second. The film will be a minimum of :60 in length.

Innovation and Design (Period 8)

Topic: Adobe Illustrator- Creating and Editing Shapes

Activity: Students will complete a tutorial in which they will design an advertisement for a real estate company.
