

**Mr. Gehly Lesson Plans**  
**September 14-18**

**MONDAY**

**Media Production (Periods 1, 3-5, 7)**

Media 1

Topic: Stock Footage Music Video

Activity: Students will create a :90 video that features stock footage cut to the beat of a music track.

Media 2-4

Topic: Magic Act Project

Activity: Students will develop videos that utilize key-framing, chroma key and other special effects to create a magical performance.

**Special Effects (Period 6)**

Topic: Foley Project

Activity: Students will record and edit sounds to match the action of a silent video clip.

**Innovation and Design (Period 8)**

Topic: Paper Robots

Activity: Students will design paper robots. Students will need to consider the geometry of each fold required to create the robot. Robots should have two complex folds and unique arms and legs, and be designed to serve a specific purpose.

Assignment: Paper Robot is due by the end of the period on Tuesday

**TUESDAY**

**Media Production (Periods 1, 3-5, 7)**

Media 1

Topic: Stock Footage Music Video

Activity: Students will create a :90 video that features stock footage cut to the beat of a music track.

Media 2-4

Topic: Magic Act Project

Activity: Students will develop videos that utilize key-framing, chroma key and other special effects to create a magical performance.

**Special Effects (Period 6)**
