

Mr. Gehly Lesson Plans
September 21-25

MONDAY

Media Production (Periods 1, 3-5, 7)

Media 1

Topic: Rule of Thirds

Activity: Students will locate images that effectively follow the rule of thirds and create a PowerPoint presentation demonstrating their understanding. The class will review the presentations and discuss the composition of each image.

Media 2-4

Topic: Magic Act Project

Activity: Students will develop videos that utilize key-framing, chroma key and other special effects to create a magical performance. When necessary, students will work on news packages. News Packages must be completed by the end of the first nine weeks and in a timely manner after the event.

Assignment: Magic Act is due Thursday, September 24th

Special Effects (Period 6)

Topic: Stop Motion Animation

Activity: Students will develop a sequence in which a toy car moves across the screen. Students will edit at 15 frames per second.

Innovation and Design (Period 8)

Topic: Introduction to Adobe Illustrator

Activity: Students will work through a tutorial designed to introduce key features of Adobe Illustrator. Ultimately, students will create an advertisement for a pizza shop.

TUESDAY

Media Production (Periods 1, 3-5, 7)

Media 1

Topic: Introduction to Shot Types

Activity: Students will discuss the 13 shots of the video repertoire.

Media 2-4

Topic: Magic Act Project

Activity: Students will develop videos that utilize key-framing, chroma key and other special effects to create a magical performance. When necessary, students will work on news packages. News Packages must be completed by the end of the first nine weeks and in a timely manner after the event.

Special Effects (Period 6)

Topic: Stop Motion Animation

Activity: Students will develop a sequence in which a toy car moves across the screen. Students will edit at 15 frames per second.

Innovation and Design (Period 8)

Topic: Introduction to Adobe Illustrator

Activity: Students will work through a tutorial designed to introduce key features of Adobe Illustrator. Ultimately, students will create an advertisement for a pizza shop.

WEDNESDAY

Media Production (Periods 1, 3-5, 7)

Media 1

Topic: Introduction to Shot Types and the video camera

Activity: Students will learn the proper procedures for signing out and operating a video camera. Students will begin shooting the "Shot Type" project. Students will record 7-8 seconds of each shot type. After recording students will edit a sequence that includes a 5 second Jumpback under a name title, 5 seconds of each shot, dissolves, consistent titles identifying each shot, and royalty-free music.

Media 2-4

Topic: Magic Act Project

Activity: Students will develop videos that utilize key-framing, chroma key and other special effects to create a magical performance. When necessary, students will work on news packages. News Packages must be completed by the end of the first nine weeks and in a timely manner after the event.

Assignment: Magic Act is due Thursday, September 24th

Special Effects (Period 6)

Topic: Stop Motion Animation

Activity: Students will develop a sequence in which a Lego minifigure walks across a Lego baseplate. Students will follow a 4 frame walking cycle moving at 15 frames per second.

Innovation and Design (Period 8)

Topic: Introduction to Adobe Illustrator

Activity: Students will work through a tutorial designed to introduce key features of Adobe Illustrator. Ultimately, students will create an advertisement for a pizza shop.

THURSDAY

Media Production (Periods 1, 3-5, 7)

Media 1

Topic: Shot Types Project

Activity: Students will record 7-8 seconds of each shot type. After recording students will edit a sequence that includes a 5 second Jumpback under a name title, 5 seconds of each shot, dissolves, consistent titles identifying each shot, and royalty-free music.

Media 2-4
