

EMPLOYMENT DISCLOSURE

Institute for High Priority Occupations and its partnering schools make no guarantee of employment after graduation, neither real nor implied. Employment is directly dependent upon four determining factors; successful completion of the CDL program, the candidate's work history, DMV driving record and criminal record.

Of particular interest to employers are felony convictions related to ILLEGAL DRUG activity and/or SEXUAL OFFENSES.

A driving record should not contain a DUI within the past five (5) years and no more than two (2) in total. It should also be free of careless or reckless driving charges as well as excessive speeding. Such infractions would not eliminate a candidate from employment, but would certainly affect the probability of a successful campaign.

I, _____ have been informed of these contributing factors and have knowingly advised all those concerned of any situations.

Name _____

Date _____
