## **High Schools That Work**

An effort-based school improvement initiative founded on the conviction that most students can master rigorous academic and career/technical studies if school leaders and teachers create an environment that motivates students to make the effort to succeed.

### **GOALS:**

- ~Getting 85 percent of students to meet reading, mathematics and science goals.
- ~Teaching students the essential content of the college-preparatory academic core and a career or academic concentration.

## **Professional Teaching and Learning Cycle**

A six step process designed to deepen the professional collaboration among staff as they engage in ongoing, job-embedded professional learning teams. Also, to develop initial skills in designing structures and procedures for ongoing, job-embedded, and data-driven professional learning teams that focus on the alignment of curriculum, instruction, and assessment.

### **GOAL:**

- ~Learn the best approach for working systemically to improve student achievement in reading and mathematics in high challenge schools.

# Graduation and Career Planning

## **The Individual Graduation Plan (IGP)**

Studies of how young people make educational and career decisions reveal that parents are the #1 influence on their child's career planning. By the 8<sup>th</sup> grade, all students in South Carolina with the help of their parents and school counselors will be thinking about careers and writing high school academic plans in an Individual Graduation Plan (IGP). The IGP is designed to guide students through career exploration, postsecondary preparation, and workforce transition.

Finding a successful and satisfying career without proper planning can be difficult. South Carolina students begin the Individual Graduation Plan process to answer the question "What do you want to be when you grow up?" by choosing a field of study or profession they are interested in, then developing a plan to guide their high school coursework. The Individual Graduation Plan will be each student's roadmap for achieving his or her career goals—be it technical skill training, college, the military or joining the workforce.

An IGP includes general graduation requirements, out-of-classroom learning opportunities and electives based on each student's chosen field of interest, or cluster of study. South Carolina offers 16 clusters of study based on a national model. Each career cluster is a grouping of related real-world professions. For example, a student interested in being a police officer would select the "Law, Public Safety, Corrections and Security" cluster.

Prior to choosing a career cluster, students will complete career exploration and assessment activities to help them pick their areas of interest. Once they choose a career cluster, students will develop their IGPs with the help of school counselors and parents or parental designees. Students, counselors and parents will monitor what the student has done and still needs to do to meet his or her IGP and will meet annually to discuss and adjust the IGP or change clusters.

IGPs are one of several new Personal Pathways to Success components designed to connect academic studies with preparation for entering the workforce. While 85% of jobs today require some post-high school education, not all require a four-year degree. Parents and students can use informative resources to explore all options and make an informed decision, including college financial assistance options.

Created by the Education and Economic Development Act (EEDA) in 2005, Personal Pathways to Success enables students to explore and prepare for career opportunities through a more relevant curriculum and first-hand experience - connecting academic studies with preparation for entering the workforce through planning and exploring various career options. All levels of S.C. public education participate in the Personal Pathways to Success initiative.

# Student Athletes of the Week

## Girls Cross Country:

We would like to nominate Kamryn Evans. Kam has consistently finished 1<sup>st</sup> in times for our girls team at every meet we have been too. She ran a 28.09 & 27.23 in the 3.1 mile meets we had last week. Her times are consistently coming down when we are running against competition. She works hard at practice, and it shows in our meets.

## Boys Cross Country:

We would like to nominate Logan Thomas (Rosemary Middle). He is running some of the fastest times on the cross country team. Last week his two times were 23.12 & 23.38 respectively. He runs very hard and practices, and even more so in the meets.
