

An evolving creation!

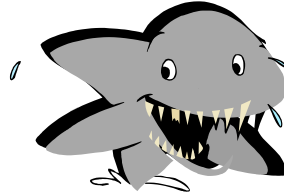

*Welcome to
Mrs. Price's
"Summer of Biology"
2017*

This summer you will delve into the world of biology like you never thought you would. In these hot months we will explore many topics to whet your appetite for the coming year of hard work.

This summer assignment has five purposes:

- get you to *think* during those summer months to keep your mind sharp, because I will expect a lot out of it come August!
- *expand* your vocabulary by familiarizing you with terms that we will be using in class.
- *introduce* you to major concepts from AP Biology through non-classroom methods of learning.
- have you *earn* three strong grades to help you begin the first quarter with confidence.
- *decrease* the amount of new material that you will have to learn during the school year.

Dun....dun...dun...dun...dun...

Is it safe to go back in the water? NO!

Like a shark, there lurks the AP Biology Summer Assignment!

Task 1- TODAY

Join the AP Biology
Class Remind by texting:
@51720 to 81010

Check Remind often or set your preferences for instant notification when you download the app.

Task 2- Email Mrs. Price at joannaprice@me.com during the summer. Or text me at 843-833-4228 as needed.

Task 3- Read the book, *The Immortal Life of Henrietta Lacks* and respond to the emails you get from me during the summer.

YOU MAY BE ASKED TO BLOG or ANSWER QUESTIONS VIA EMAIL.

Be prepared to do some fun things and communicate them during the summer. This can be the most rewarding class you ever took because you will do things you have never done before.
