

Summer Reading Assignment

We hope that you have a fantastic summer and are excited about coming to 3rd grade in August. We would like for you to do lots of reading over the summer!

A summer reading list for students that have completed 2nd grade is attached. Make sure that you bring your written summary with you on the first day of school.

1. For the summer reading assignment, students will need to choose a book. You may use one from the list or choose one on your own. Parents you may find it helpful to use Book Wizard on the Scholastic website to find a book that matches your child's reading level to read this summer. You can purchase the book at a store or you can go to the public library and check-out the book to read.
2. Then, students will need to write a paragraph that summarizes the book. The work may be typed or handwritten on loose leaf notebook paper.
3. All work should show correct grammar, punctuation, and mechanics.

Other Reminders

It is very important that students come to school already knowing their basic addition and subtraction facts. By the time school starts, students should be able to add and subtract without using their fingers.
