Our Mission

McDonald Elementary School will provide every student with a multi-faceted curriculum challenging students to reach their maximum potential and be productive in a global society.

From the Principals' Offices . . .

We have several exciting academic events coming up: Science Fair, and Academic Fair. We are thrilled with the progress our students have made thus far and look forward to their participation in both the Science and Academic Fairs. On February 21 the students participated in Jump

Rope for Heart activities. We know how important it is to teach our students to be physically active as a part of being heart healthy. Parents, please continue to stay in contact with your child's teacher as we begin the last half of our year. We want all of our students to be

successful learners. Don't forget to read 20 minutes each day!

Reading Matters . . .

I think reading is part of the birthright of the human being.
Levar Burton
