State Testing For Grades 3-5

All students in grades 3-5 will take state assessments online, unless specified in the student's IEP or 504 plan. These tests will be administered during school in a secure testing environment. While most of the tests are multiple choice, the English language arts (ELA) assessment will be administered over a two day period, with day one being a text dependent analysis question requiring students to type their response. These ELA assessments are not timed, and students will have the opportunity to create a graphic organizer and rough draft on paper prior to inputting their responses on the computer.

The following state assessments will be administered this spring:

Grade 3 - ELA (2 days), math

Grade 4- ELA (2 days), math, science

Grade 5 - ELA (2 days), math, social studies

Leaders on the Deck

During the month of January, the faculty, staff, and students concentrated on Habit #4, Think Win-Win. For the students, Habit #4 is a belief that everyone can win. It's not me or you, it's both of us. It's working on a solution until both people are happy with it.

These young leaders were selected by their homeroom teachers for their leadership skills and commendable actions. We are very proud to recognize the students pictured as true Leaders on the Deck for Habit #4.

Family Mission Statements

Mission statements have long been a part of organizations; they provide a clear path for what the organization wants to accomplish and how they plan to go about doing it. Yet, seldom does a family take the time to write a mission statement, and what organization is more important than the family? By establishing who you are as a family, how you want to be known, and how you plan to do it, you are practicing Habit 2: Begin With the End in Mind®. The process is a great way to practice all of the 7 Habits.

STEPS TO TAKE

Step 1:

Ask yourself these seven questions:

- How do we want our family to be known?
- How do we want to treat each other?
- What is most important to us as a family?
- What are some of our talents, gifts, and abilities?
- What makes us the happiest?
- What makes us unhappy?
- What kind of home do we want to invite friends to?

Step 2:

Write your Family Mission Statement. Consider all 4 areas:

- Body (health & physical welfare)
- Brain (learning)
- Heart (relationships)
- Soul (inspiration)

Keep it simple, 1 - 2 lines, so the youngest family members can memorize it & find it meaningful. Examples: "We are builders," "No empty chairs," "To serve others," "All for one and one for all," etc.

Step 3:

Stay on Course

As parents, you are the role models. Keep smiling and getting back on track. The promise: By writing a Family Mission Statement, the message to your children is that your family is important - you know what you stand for and how you are going to work together to accomplish it.

A REMINDER FROM THE SCHOOL NURSE

Fall and Winter are not only prime months for cold and flu, but also for head lice. It is important for parents/guardians to be proactive and continue to check their child's head weekly and treat only if live lice are found. Remember these tips:

ANYONE – child or adult can get head lice. They are passed from person to person by direct contact, or by sharing objects (combs, towels, hats) Getting lice has nothing to do with cleanliness.

WHAT TO LOOK FOR- They are greyish-tan crawling insects about the size of a sesame seed. Look for tiny eggs (nits) on hair shafts, near the scalp, especially above the ears and at the back of the neck.

HEAD LICE TREATMENT- Several products are available without a prescription. Read and follow the directions carefully. Most products require a 2nd application 7-10 days after the first. Consult your MD or pharmacist for help, if needed, when choosing the correct product.

Try and remove lice and nits using a special nit comb that comes with most over the counter products.

WASH AND DRY- items such as bed linens and towels used by the person with head lice. Use hot water and dry on hot for at least 20 minutes. Items that are not washable (stuffed animals) may be sealed in a plastic bag for 2 weeks.

SOAK- combs, brushes and other hair items in hot water (at least 130 degrees) for at least 10 minutes or soak in over the counter product for lice treatment.

VACUUM- carpets, pillows, mattresses and upholstered furniture, car seats.

As always, should you have concerns or questions, please feel free to contact your school nurse.
