Suggestion made to add the following indicator: Student surveys with AP classes (develop standard feedback survey, rate 1-10) Mrs. Meetze shared with the group information on the survey that she started last year with her classes. Students receive a note card and are asked to list what's working well, what's not working, and tell something about themselves. She has also added an area for her students to make suggestions on ways to fix areas that are not working well (student has ownership).
        - Action Step 4 Indicators of Implementation –
