- Worked in administration both at the building (middle and high) and district levels for over 10 years.
- Education: Spanish (B.A.), Gifted and Talented (M.Ed.), Supervision and Administration (Ed.S.), Leadership in Educational Administration (Ph.D.)

Vision

The vision for North Middle High School is for the culture to be a collaborative community of learners who are engaging students through 21st Century Skills through the Profile of the South Carolina Graduate to become successful world class citizens as we prepare them for college and career readiness.

Mission

We educate to **Energize**, to **Engage**, to **Elevate** and to **Empower**.

Core Beliefs

I strongly believe:

- In respect.
- In being passionate about educating each day.
- In integrity and the Golden Rule.
- In building positive relationships and collaboration. We are better together.
- The excellence is a habit, not an event; therefore, excellence should never be compromised.
- In developing the whole-child through academics, the arts, athletics, as well as through social-emotional development.
- In high expectations & rigorous standards of teaching and learning.

Goals

My goals are:

- To create an environment each day where parents want to send their children, students enjoy coming to school, teachers love teaching here, and one in which the community embraces.
- Maintain a safe student-centered learning environment.
To raise academic achievement on standardized testing; especially in ELA and Math, as well as to prepare students for college and careers through critical thinking.
- To instill and to have an active learning environment through athletics, arts, academics, clubs, and other organizations.
- To structure a continuous improvement of professional learning and action research which instills a growth mindset and teacher leadership.
- To create a mentoring program where each child has an advocate.
- To graduate students successfully and to ensure that each child transitions to post-secondary properly either by means of a 2 or 4 year college, the military, or by obtaining a career and technology completion for the ideal profession.
