

## Student Technology Acceptable Use Policy Agreement

*Please read the following carefully before signing this document. This is a legally binding document.*

I understand that, as a computer and Internet user, I am responsible for my actions and that I am responsible to act considerately and appropriately in accordance with the following rules.

Students must act ethically, respectful, academically honest and supportive of student learning. Each student has the responsibility to respect others in the school community and on the Internet. Students are expected to abide by the generally accepted rules of network etiquette.

I understand that these actions are not permitted while using the school network, technology equipment, or Internet access:

- send, display, or download offensive communication or media.
- use obscene language.
- harass, insult, attack, or defame others.
- intentionally damage school technology equipment or network infrastructure.
- attempt to enter network areas not related to specific classroom.
- violate copyright laws.
- use other users' passwords or identifiers without authorization.
- trespass in other users' files, folders, or work.
- intentionally misuse resources.
- install or download software.
- illegally duplicate software, music or video media.
- attempt to bypass system protection including the creation or use of proxy servers or websites.
- use the network for commercial use.
- reveal my personal address or phone numbers nor those of fellow students or school personnel.
- intentionally introduce a virus or malware to technology equipment or network.
- access and use social networking or media for non-educational purposes.
- perform any action which violates existing Board Policy or Public Law.
- stream audio or video for anything other than educational use.
- send electronic communications fraudulently (i.e., by misrepresenting the identity of the sender).

Cyberbullying will not be tolerated and will result in severe disciplinary action and loss of privileges.

No user of technological resources, including a person sending or receiving electronic communications, may engage in creating, intentionally viewing, accessing, downloading, storing, printing or transmitting images, graphics (including still or moving pictures), sound files, text files, documents, messages or other material that is obscene, defamatory, profane, pornographic, harassing, abusive or considered to be harmful to minors.

I will use technology including Internet access in an appropriate, responsible, and ethical manner.

I understand that any violation of this agreement and any additional school or classroom guidelines may result in disciplinary action.
