

THE PROWL

FAYETTEVILLE HIGH SCHOOL

CELEBRATING OUR CLASS OF 2018

Together.

One of the very first things I was told when I first moved to Fayetteville High School at the beginning of my junior year was that everyone does everything together.

At first, I reacted the same way that I always had when a teacher, counselor or an over enthusiastic parent told me this before, which would be a slight cough covering a laugh and a sarcastic “okay...” in my head. This coming from Mrs. Brewer before the school year had even started for me, I thought nothing of it. But as the 2016-2017 school began and I started to be included by many of my peers, I began to realize the words I had been told months ago were very true. I saw kids of all ethnicities, grades and incomes doing all kinds of things together.

Once I made very good friends at school, I realized just exactly what Mrs. Brewer had meant; I saw in the classrooms there was no kid sitting alone in the corner on his phone while everyone else talked and told stories, I did not see anyone sitting alone struggling with math by themselves, I never saw a kid sitting all by themselves at lunch.

What I did see was a huge group in the classroom all cutting up with each other and getting their work done together.

I saw dedicated teachers helping any student that needed it and I saw the teachers making sure everyone completed the work together, I always saw other students invite people who didn't have a place to sit,

to come and sit down so they could all eat together. That is exactly how I spent my last two years of high school.

We got school work done together.

We cracked jokes with Mr. Endsley together.

We ate together.

We struggled through math and engineering classes together.

Some of us even failed a few tests together but no matter what it was, we always did it together.

Now, as we head off on our own separate ways, whether it is college, the military or going straight into the workforce, we will always share one thing...

Graduating together.

High School Memories

"My favorite high school memory at Fayetteville High School is the boys basketball team's victory over Republic in the regional playoffs." -William Moxon

"My favorite memory from high school was spending time with my friends and hanging out in the criminal justice room." -Jessica Bates

"I think my favorite memory is probably the Art trip this past year to see Nick Cave's Soundsuits in action. It was an amazing concept and being able to see something so inspiring in real life was an unimaginable experience. I couldn't be more happy to have been able to experience it." -Hannah Simmons

"Pep rally of the week was my favorite memory from high school. I was able to spend time doing fun activities with all of my friends." -Zadarea Beard

"My favorite memory is being in honors English class and all of us coming up with a plan to throw paper balls at Endsley. Lex said the signal and Weston got blamed for it. Mr. Endsley ended up making him clean it up." -Mckenzie Mcelyea

"My favorite memory is playing ball with Amari Bryson and Alli during softball season. We had the best laughs with one another." -Kevondria Carr

"Long snapping in the Cornersville game and being student body president are my favorite memories from high school." - Tyler Talley

"My favorite memory is meeting new people and making new friends." -Christina Ladigo

"I made a 28 on the ACT" -Kenny Darnall

Classic Excuses of Our Senior Class

"My car was broken" - Katie Wilson

"I swear it's in my car" - everyone in HS

"I was sick, I forgot about it" - Mary Lynn Byrom

"I had to go home to let the dog out. My dog could be cold and wet" - Garrett Blankstrom

"I had Motlow" - Abby Drew

"A tornado went over the main highway when I was going home, so I had to stay at a hotel for the night and most of the next day, which made me miss school the next day" - Isaiah Watkins

Class of 2018's Favorite Teacher

Dear Class of 2018,

Little did I know when I came to be your librarian three years ago that I would become so attached to my 2018 sweet seniors. The truth is that even though I do have to chase you out of my office constantly, I do love each and every one of you! We have watched you grow and learn and mature as you made your way through school beginning your Freshman year. As you look back on your time here as an FHS Tiger, I hope that you have wonderful memories on the teachers here that taught you, supported you and worried over you all of these years. I also hope that you remember that you carry a little part of each of us as you go out to begin your future. There isn't a teacher or administrator here that doesn't hope and pray that your path is straight and that you find many blessings in your life.

-Terry Anderson
