

Dear Parents/Guardians,

I am very pleased that your child is interested in joining the chess club this year. We really have a great time in our club because it is laid back, and we have a fun atmosphere for students to play. Students in the club have the opportunity to meet new people and make friends, as well as develop social skills and problem solving skills.

Our club will meet every second and fourth Wednesday of each month. Each of our meetings will last from 3:00pm to 4:00pm. Students are expected to be picked up promptly at 4:00. Students will be playing on chess boards that are provided by the school, as well as using the internet to play opponents. Please let me know if there is any problem with your child using the internet. Your child does not need anything to join the club, but you may want to purchase a board for them to practice with at home.

Again, I am very happy that your child wants to be part of our club, I am happy to be the leader of the group, and I look forward to teaching your child about chess. If you agree with letting your child participate in the chess club, and agree to the statements above, please sign the bottom of this page and have your child return it to me or the office. I must have permission from you before they can stay after school.

Sincerely,

Andrew Hall
