Back to School Rock Creek Elementary

Establish Homework Routines for Long-Term School Success

Imagine your child is a high schooler with hours of homework every day. How would he/she handle it? Help your child prepare now by instilling basic study skills. The habits your child develops in elementary school will last a lifetime!

You can instill good study habits if you:

- **Enforce a study time.** Choose one that works best for your child. Some kids need to blow off steam right after school, while others like to finish homework right away. Pick the time that works best for your child—and stick with it!
- **Create a study space.** Make sure your child has a quiet, comfortable place to work. It should be free of distractions, especially noise from the TV. Stay nearby to supervise, and set a good example by reading or taking care of your responsibilities.
- **Finish early.** Long-term assignments are perfect opportunities to teach the value of planning. If your child has to write a book report, for example, split the project into parts and set a deadline for each one.
- **Compliment success.** How does it feel to work hard and see results? To do well on tests? To complete projects early? (Great!) Discuss this with your child. "I love what you did! You really took your time to be creative!" "You got a good grade because you studied." "Doesn't it feel great to be done!"
