

## **Additional Tips**

Carts can be synced so all iPads have the same content. Limit to just what apps students need for your activity.

Read acceptable use guidelines before taking cart out of library!

Assign numbered iPads to students by going down your roll. If there are issues with an iPad later, we know who to talk to.

Practice classroom management tips.

When finished, call down roll for students to return iPads to cart, to make sure they go back in the correct numbered slots.

Have students close all running apps before returning iPads to the cart.

Always return the cart to the library yourself, NEVER send with students! (liability issues)

How to keep 30 kids in one app

- Expectations & consequences up front

- Have a clear plan for the activity

- Keep them on their toes!

- When students are done working, iPads go back in the cart
