The program began with an hour of videos, a brief 10 minute intermission, along with door prizes, and then another hour of videos, followed by the awards ceremony. W hile walking through the halls during my last few weeks as a West High Trojan, I remember the books of the last four years that I have read. Did I accomplish everything that I stand to do as a freshman? Did I grow spiritually and mentally? As I look back, I can see that I have also spiritually evolved just around the world. My life is going to change dramatically once I start the next chapter of my life at East Ten nessee State University for the next four years, each day has felt like an eternity. However, I have been able to see the light at the end of the road. The last few months ago that I registered for my fall classes is the most important time in my life. I am going to start a new chapter in my life. I look forward to the journey that is ahead of me.

The people that I have had the most important time in my life. I am going to start a new chapter in my life. I look forward to the journey that is ahead of me. This is the most important time in my life because I have been able to see the light at the end of the road.

Planning for the future is something that I have been thinking about for a long time. The world is changing and I have been able to see the light at the end of the road. I hope that I can continue to make good decisions and that I will be able to be that person that I have always hoped to be.

The road less traveled has also taught me not to conform to the way of the world. Therefore, you dedicate time to being certain your hair looks perfect and your clothes are in order. Because you don't want to make others feel bad about themselves.

In addition, I have learned that it is important to avoid judgment at all costs because those that we can not match up with the status quo are usually the ones that you can count on in the long run.

Furthermore, I have learned to take the road less traveled by being independent. I don't always have to be "that girl;" the one who, regardless, has to take her best friend to the bathroom with her. Because when you go for things on your own, you end up discovering valuable insights about yourself and life that you never thought you would. What I'm saying is, do what you want to regardless of what anyone else is doing or it not. If you want to join that new club, and your friends are joining, join it anyway. You may end up meeting some amazing people you never knew before.

Taking the road less traveled has also taught me not to conform to the way of the world. Therefore, you dedicate time to being certain your hair looks perfect and your clothes are in order. Because you don't want to make others feel bad about themselves.

Reggie Dabbs is not your ordinary individual. He is an amazing speaker and can make a no one feel like someone.

Dabbs started his life not having a mother or a father who were a lot older than most other kids. “My heart sank when my mom uttered those fateful words to me, ‘I’m not your real mother.’” Dabbs soon found out that his real mom would sleep with men for 20 dollars just to feed his three children. “To a second grader, what could be more devastating than to hear that the woman you have always looked to as Momma is, in fact, not your real mother?” says Dabbs.

Dabbs soon noticed that his mother and father were a lot older than most other kids. “My heart sank when my mom uttered those fateful words to me, ‘I’m not your real mother.’”

When Dabbs was in the second grade, he started his life not having a mother or a father who were a lot older than most other kids. “My heart sank when my mom uttered those fateful words to me, ‘I’m not your real mother.’”

“Reggie Dabbs is an incredible man to grow up without a biological father or mother. Dabbs speaks to millions of kids every year. Life is too short, and people shouldn’t take it for granted.”

Bullying suicide is the third leading cause of death among young people, resulting in about 4,400 deaths per year, according to the CDC. For every suicide among young people, there are at least 100 suicide attempts. Over 14 percent of high school students have considered suicide, and almost 7 percent have attempted it. So bullying plays a big part in the young life of kids K-12.
A most everyone can agree that getting a good, reliable group of friends is an important part of growing up. Tyler Johnson, Will Cureton, Darnell Gibson, and Cody Fleenor have found that support group. They were asked the following questions about their relationship:

JOIN: “It seems like we do the same thing every time. Just chill, talk, encourage, and make each other laugh. There’s no telling really.”

CUR: “It would probably be getting to meet with these guys weekly at our Bible study. We get to dive into the Word and get to know each other on a spiritual level. You can’t beat that type of friendship.”

FLE: “My greatest memory was last July when all four of us were counselors for our church’s big children’s camp, Junior Camp. We needed counselors and we only had a week to find them. Tyler and I were already going. We called DJ and Will and they agreed to go. During that week, I just realized how blessed I am to have these friends and the future that’s ahead for us all.”

GIB: “It would be when Marty Visser attacked us at Motown Madness 7th grade year for throwing Chick-fil-a wrappers at him.”

Tell me one interesting thing about DJ Gibson that you have found out about him over the past several years.

JOIN: “The way he is able to be such an encouragement and have such a good attitude despite his situation.”

CUR: “I was the most proud of D.J. when he spoke in front of the whole youth group at FBC, admitting his faults of late so that we might learn from his mistakes.”

GIB: “I learned that Will is going to have your back through everything life may throw at you. Through good times and bad, he’s going to be there to support you in any way possible.”

Tell me one interesting thing about Tyler Johnson that you have found out about him over the past several years.

FLE: “This wasn’t the only time when I was the most proud of Tyler, but this was one of the proudest moments of my life. It was the day that Tyler professed his desire to enter ministry publicly. I want to enter the ministry as well, so to see Tyler desire that too made me feel that we could change this world for the cause of Christ together.”

Almost everyone can agree that getting a good, reliable group of friends is an important part of growing up. Tyler Johnson, Will Cureton, Darnell Gibson, and Cody Fleenor have found that support group. They were asked the following questions about their relationship:

Girls stretch and ponder on the stress of tryouts before judges start calling their numbers in.

Hamblen West High School held their cheerleading tryouts. This week, for many girls, was a stressful, sleepless and overwhelming time. Monday, April 8, the cheerleaders were taught their chant and cheer. They also practiced their jumps and tumbling Monday through Wednesday. Day three, the cheerleaders practiced their chant and cheer. After the jumps, the cheerleaders went through the dance a few times after learning it, and tumbled. On Wednesday, day three, the cheerleaders went over everything they had learned over the few days and continued to learn the second half of the dance. The cheerleaders went over the dance numerous times using 8-counts and then switching to the music to try to learn the dance more accordingly. The cheerleaders were prepared to present their muck-tricks in front of one of the presenters by Thursday. The seniors were assigned to certain participants, and rated them on loudness, motions, appearance, and all the essentials of being a West High School cheerleader. On Friday, all the girls' nerves were running high because all the seniors had to go out with their group and do their cheer, and their dance. Separately the girls had to present their cheer, standing tumbler, running tumbling and jumps. The morning of Saturday, April 13, results showed the numbers who made Junior Varsity and whom were Varsity. Congratulations to next years 2013-2014 Morristown West High cheerleaders!

Morristown West Tennis Defeats Jefferson County

BY CHRISTA ADAMS NEWS EDITOR

Monday, April 22 The Morristown West tennis team took on Jefferson County High School at the Carson Newman College, tennis courts. The lady Trojans had a 4-2 lead in the singles.

Winners in the singles were Rachel Ramsey, Alicia Williams, Catherine Cook, and Hannah Booth Moore.

In doubles, the lady Trojans only needed to win one of the doubles matches in order to secure a win for the girls’ team. Number two doubles and number three doubles both lost their matches, leaving number one doubles on the first and only double to win the point. The lady Trojans tennis team finished with a score of 5-4, leaving them conclusively undefeated in the IMAC since 2008.
