February 7, 2017

Parents/Guardians,

Greetings! It is almost time for STEAM (Science, Math, Engineering, Arts, and Mathematics) Night at Hunter Middle School!

STEAM Night is **Monday February 27, 2017 from 6:00-7:45 PM**. This night will be **student-led**. In science, math, and related arts classes students will be preparing to present to you a reflection of their learning. You and your student will rotate between their science, math, and related arts classes for a scheduled **student-led** tour. During this scheduled **student-led** tour, your child will sit down with you and share some of their learning experiences, products, and performances.

We are so excited about the growth we have seen in our students in math, science, and related arts. They have been engaged in a great amount of problem solving, inquiry, production, and performance. Student reflections, as well as concrete examples of student work, can reveal much more about his or her learning and growth than can be conveyed through grades or comments. We are striving to improve our students' reflective practice on their own work, and our hope is that, in doing so, they can build independence as learners.

We would like to include parents as an audience for this reflective work through a **student-led** tour of their learning. This is a positive opportunity for you to help us give students practice reflecting upon their strengths and challenges as well as their personal goals as learners.

We hope you will be able to attend with your student as they take you on a tour of their learning in science, math, and related arts. Please return the bottom portion of this letter to your child's homeroom teacher by Tuesday, February 21st.

Sincerely,

Robert Alford
Principal

I will be attending STEAM Night on Monday, February 27th with my student. _____

Number attending: _____ (including student) Due to limited space and to allow for productive reflection, we encourage this to only include the Hunter student and his/her parent/guardians. If this in any way precludes you from attending, please let your child's homeroom teacher know and someone will contact you.

We will not be able to attend STEAM Night. _____
