RE: Texting between staff and students

Electronic communication is a vital piece to the success at STEM School Chattanooga. We will spend time with students talking about appropriate use of technology, including social media sites, apps, and messaging services. In order to do so effectively and to model appropriate electronic communication, our staff may also text students.

Please sign below for permission for our staff to text with your child. If this is an issue, please see Dr. Donen to discuss this procedure and your concerns.

Student Name \_\_\_\_\_

Parent Name \_\_\_\_\_

\*By signing this form, I approve for the STEM School Chattanooga staff to communicate electronically, including by texting, with my child.

Parent Signature \_\_\_\_\_
