Tennessee Transfer Pathways Effective Fall 2011

Tennessee Transfer Pathways (TTPs) are advising tools designed to help community college students plan for transferring to a Tennessee public university to complete their baccalaureate degree. The TTPs also constitute an agreement between community colleges and universities confirming that community college courses meet major preparation requirements.

How do the Pathways work?

A student who completes all the courses listed on a particular Transfer Pathway will earn an A.A. or A.S. degree at the community college. When the student transfers to a Tennessee public university the transcript will certify that the pathway has been followed. The student is guaranteed that all the community college courses taken will be accepted at the university and the courses will count toward completion of the particular major. If a community college student transfers to another Tennessee community college, he or she is guaranteed that all courses transfer.

Important Note: Admission to UT, Knoxville is competitive; therefore, the Pathways do not guarantee admission to UT Knoxville.

College Days

If your school designates a “college day” for your students to visit our campus, please let us know by email the dates so we can be prepared for campus tours. It would be helpful if the students would schedule their tours so we can ensure availability of a tour guide. Students can contact Michael Sztapka at 931-540-2766 to schedule a tour.

We would like to thank you for all that you do to assist your students with their educational goals. We appreciate everything that you do and your support of Columbia State. We enjoy working with each of you!
