HSA News

Please read the attached
newsletter for all
upcoming events put on by
Home and School
Association.

Santa Clara of Assisi Catholic Academy's fundamental purpose is to develop the whole child through spiritual development, academic achievement, recreation and social interactions. Students are encouraged to build on their strengths and challenged to overcome their weaknesses through differentiated instruction.

Santa Clara centers on the concept of personhood, that every student has been uniquely gifted by God with the ability to learn, to interpret, and to share spiritually, intellectually, socially, and esthetically. Therefore, it is imperative that each student has the opportunity to develop his/her potential to the fullest.
