

# ***Geometry Help for Students and Parents***

The following are suggestions for parents and students to explore if they are struggling with Geometry:

**Contact the teacher:** Please contact your child's teacher if he/she is experiencing difficulties in the class. The teachers' voicemail can be reached by calling 972-617-3535 at the extensions listed below. The best way to contact the teacher is through email. The email address for teachers at ROHS is as follows: [firstname.lastname@redoakisd.org](mailto:firstname.lastname@redoakisd.org) Also, links to their email can be found on the school staff listing on the High School webpage.

Charles Boyd	ext. 6311
Elizabeth Haugh	ext. 6307
Diane Kesler	ext. 6309
Beth Seck	ext. 6317

**Morning Tutorials:** Free tutorials are offered by each Geometry teacher from **7:50am - 8:20am every day**. Most teachers are also here after school for tutoring if that is more convenient. If your child's teacher is not here after school, they can seek help from any Geometry teacher.

**Check out a textbook:** Although the teachers do not necessarily follow the sequence of a particular textbook, there are Geometry books available in the book room for the students to check out. The student can refer to the table of contents and find the topic they need help with. Students can obtain a form from the front office to request a textbook. The book will either be delivered to them, or they will be notified when and where they can pick up the book.

**Free Websites:** There are several helpful websites that students can access from any computer with internet access. Here are a couple of very good resources for Algebra 1:

**Khan Academy:** <http://www.khanacademy.org/>;

click on 'Browse our Library' and select Geometry.

-There is also a Khan Academy App for your phone or i-Pad.

(Help for many other subjects is offered on this site)

**Prentice Hall textbook resource:** <http://phschool.com/>;

Enter code: aue 0775 to go directly to the Geometry lessons.

\*Youtube also has many helpful videos, but be cautious; since anyone can post these, they may not all be worthwhile.
