Mary L. Russ
Director

Tanya D. Durrell
Assistant

October 21, 2013

Parents/Guardians:

The Mississippi Department of Education makes available to the public various reports that have information, such as the graduation rate, demographic information, and test scores, for each of Mississippi's public schools and public school districts.

These reports can be found by selecting a school district at the website www.msreportcard.com. The reports for the Amite County School District can also be located on our website www.amite.k12.ms.us, by selecting "Federal Programs" and then clicking on "Annual Report," which will reveal a link directly to the ACSD's latest performance reports released by the Mississippi Department of Education.

Paper copies are also available upon request from each school as well as from the Office of the Superintendent at the address above.

Please do not hesitate to contact me with any questions or concerns at (601) 657-4361.

Sincerely,

Mary Russ, Federal Programs Director
Amite County School District
