

APPLING COUNTY BOARD OF EDUCATION TRANSPORTATION DEPARTMENT ANNUAL STATE SCHOOL BUS INSPECTION RESULTS

On January 20, 2011, the Appling County Board of Education Transportation Department underwent its annual state inspection. The Georgia Department of Transportation, Public Safety Division inspected 56 buses over a three day period. The state inspector found three total defects for all 56 buses; this was an exceptionally good inspection. Mrs. Scarlett Copeland, Appling County Board of Education Superintendent and the members of the Board of Education would like to offer their congratulations to Edward Overstreet, shop foreman; Malcolm Hall, lead mechanic (not pictured); and Richard Turner, mechanic's helper. These individuals do an excellent job of keeping Appling County school buses in top operating condition.
