

# WHERE MONTANA BEGINS

## Why You'll Love Western Montana:

- A great organization and staff!
- We're nestled between two mountain ranges
- Abundant recreation for every season

**Apply today!**

We're Bitterroot Valley Education Cooperative (BVEC), a full-service educational cooperative providing rehabilitation and mental health services to six school districts in Western Montana. Our headquarters is in the town of Stevensville, which was the first permanent settlement in the state, but we service an area covering about 50 miles in the heart of the Bitterroot Valley in Western Montana. Our local communities are tight-knit and friendly, with farmer's markets, museums and theatres, retail shops, restaurants and cafes, and dozens of home-based businesses and cottage industries. If you're an individual who wants to join a close community working to improve the lives of their children through superior educational opportunities, then we'd like to talk with you.

## Speech Pathologist

You'll join a staff of four Speech Pathologists to handle a caseload of children with speech pathologies ranging from mild articulation disorders to multiple impairments and augmentative communication needs. You'll support students in one or more BVEC member School Districts. You'll work on IEPs, assessments and evaluations, and direct service, as well as provide consultation to parents and teachers. To qualify, you must be a licensed Speech Pathologist in the State of Montana. New grads are welcome to apply.

Along with competitive compensation, we offer our staff members medical, dental, vision, and life insurance; a state pension plan; paid-time-off for sick days and personal leave; and assistance for continuing education, licensing, and professional memberships.

This is a great opportunity to become a part of a uncommonly beautiful community. **Apply today!**, or for more information, call Tim Miller at (406) 777-2494, ext. 112. For more information visit [www.bvec-mt.org](http://www.bvec-mt.org).
