AUGUST 10, 2016

Changing the name on your license is done electronically. Please read the information below.

The [TN Compass online portal](#) allows educators to submit an application electronically in minutes. TNCompass also allows both educators and their university to apply for initial licenses, advancement, renewal, additional degree/endorsements, name changes as well as demographic information changes.

The educator can also review qualifications related to their teaching credentials, education, exams, and previous education employment. Another function of this application allows educators to upload documents that may be required for processing educator credentials.
