Branford Board of Education Strategic Success Plan

May 2, 2014

An Open Letter to the Branford Community:

The Branford Public School system provides a quality education to over 3200 students of diverse backgrounds. Recently, the Board and District's leadership established a Core Planning Team comprised of Board members and educational leaders to work on the Strategic Success Plan. By engaging in *strategic success planning*, we will restate our vision and mission to provide a superior education experience to each child. The committee is excited to initiate such a powerful and essential process and looks forward to engaging stakeholders as the planning unfolds.

By planning for the future, we "set a course" for the upcoming year(s) that guides and informs institutional decisions and the allocation of resources. This comprehensive planning process will yield valuable outcomes for students and critical information for the Board and the community of Branford.

Throughout the planning process, the Core Planning Team will request community stakeholder input and provide intermittent progress updates to Board of Education and the community.

Sincerely,

David Squires

Dr. David Squires
